DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/12/2006 has been entered.

Reissue Applications

MPEP 1412.02 states the following:

A reissue will not be granted to "recapture" claimed subject matter which was surrendered in an application to obtain the original patent. *North American Container, Inc. v. Plastipak Packaging, Inc.*, 415 F.3d 1335, 75 USPQ2d 1545 (Fed. Cir. 2005), *Pannu v. Storz Instruments Inc.*, 258 F.3d 1366, 59 USPQ2d 1597 (Fed. Cir.2001); *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984); *In re Wadlinger*, 496 F.2d 1200, 181 USPQ 826 (CCPA 1974); *In re Richman*, 409 F.2d 269, 276, 161 USPQ 359, 363-364 (CCPA 1969); *In re Willingham*, 282 F.2d 353, 127 USPQ 211 (CCPA 1960).

In the present case the limitation “a primary exit port being located... for receiving an order of light that maximizes throughput and minimizes astigmatism” has been added for patentability in the amendment filed 6/11/1999 during the prosecution of the application 08/884,417.

In this case, there is recapture. Assume the combination AB was originally claimed in the application, and was amended in reply to an art rejection to add element C and thus provide the combination ABC (after which the patent issued). A reissue application is then filed, and the reissue application claims are directed to the combination ABC broadened. The ABC broadened claims are narrowed in scope when compared with the canceled claim subject matter AB, because of the addition of Cbroadened. Thus, the claims retain, in broadened form, the limitation argued/added to overcome art rejection in original prosecution. In this instance, a recapture rejection would be made even though ABC broadened is narrower than canceled claim subject matter AB , because the surrender-generating limitation C has been broadened, i.e., there is broadening in an area related to the surrender.

Oath Defective

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The applicant states in the oath "The above identified application is a broadening reissue." However, the limitation in col. 15 of the US Patent Number 5,995,221, claim 1, lines

Art Unit: 2877

45-47, has been added in the original application claims for the purpose of making the application claims allowable over a rejection.

Claims 1, 7, 8, 10-12, 66, 84-120 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
